About iPoint

iPoint is a leading provider of software and services for environmental and social product compliance, process compliance, and sustainability.

Tens of thousands of companies around the globe rely on iPoint's solutions for managing, tracking, analyzing, and reporting data across the whole value creation network and throughout the entire product lifecycle.

iPoint's software and consulting services support you in meeting and staying one step ahead of regulations and requirements such as REACH, RoHS, WEEE, ELV, EHS, Conflict Minerals- and Modern Slavery-related laws, as well as other trending developments and challenges governing product, supply chain, and enterprise stewardship.

iPoint's holistic, circular perspective envisages a continuous, digital system lifecycle management process that supports not only compliance with the law, but also the sustainability of products, value chains, and brands.

References

Worldwide, more than 45,000 customers from various industry sectors rely on our software and services – including the automotive, electronics, mechanical engineering, aerospace, textile and clothing, and ship-building industries.

Our customers range from S&P 500 enterprises with several thousand employees to smaller companies with less than 50 employees. Here is a short excerpt from our customer list:

Adient • Aston Martin • Automotive Lighting • Becton Dickinson • Bosch • Caterpillar • Daimler • Emerson • Ford • GM • Hyundai • Kia • Jaguar Landrover • Magna Steyr • Mahle • MTU Aero Engines • Nissan • PSA • Renault • Roche • SAIC • Scania • Toyota • Volvo • Voith

Research & Development

iPoint is a renowned partner in international R&D projects. Recent projects include:

eLRT (since 03/2016)

„electronic Labor Rights Template“ | www.elrt.org
Development of an open-access, Excel-based template to support companies in their compliance with global human trafficking and modern-day slavery legislation. In cooperation with Dr. Chris N. Bayer, Development International, and an international stakeholder forum of private sector and civil society representatives.

MultiMaK (03/2013-03/2014 and 01/2015-12/2018)

Design and development of assessment tools for ecologically optimized multi-material automotive components for mass production. Funded by the German Federal Ministry of Education and Research (BMBF).

SustainHub (02/2012-01/2015)

“Sustainability Data Exchange Hub”
Development of a universal data hub for the exchange of compliance and sustainability data along the supply chain. Funded within the Seventh Framework Programme of the European Commission (FP7). The consortium consists of 15 partner organizations from 7 countries across Europe.

Awards & Certifications
